

MVS

ADHESIVE TAPES

Specialty Tapes – Plain/Printed

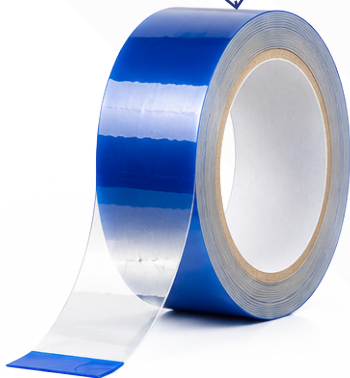

Manufacturing of different tapes for packaging applications

- HDPE woven fabric adhesive tapes
- BOPP self-adhesive tapes
- Paper tapes
- Cross Filament tapes
- Specialty self-adhesive tapes

Printing facilities of different MVS tapes

- Single color to 4-color printing jobs (in-house)
- Customization as per the customer's specifications

Fabric Adhesive Tapes – Plain/Printed

HDPE Woven Fabric Tapes

- HDPE woven fabric adhesive tapes find application in packaging of Steel coils, bundling of Steel ropes, sealing of HDPE fabric & tarpaulins & manufacturing of F.I.B.C Bags.
- HDPE Tapes adhere well to many surfaces, provide strength & water resistance to packaging.

These tapes can be customized for colour i.e.

- White
- Blue
- Black
- Yellow
- Grey

The tapes are also available without liner for ease of use & increase productivity.

HDPE Tapes Various Properties

HDPE woven fabric adhesive tapes which stands for **High density Polyethylene** adhesive tape, is a type of hot melt tape known for its heavy-duty water resistance.

HDPE tapes which offers several advantageous

- High Tensile strength
- High Binding Capacity
- Strong Adhesion
- Water & Moisture Proofing

HDPE Tape Quality Specifications			
PRODUCT	COLOURS	SIZE WIDTH & LENGTH (MM*MTRS)	REMARKS
HDPE Woven	Grey	24*50	-
	Blue	72*50	-
	Fabric Adhesive White Tapes	-	100 * 50
	Red	-	120 * 50
	Yellow	192*50	-

Applications

Steel

Construction

Edge Protection

Security Seal Tape

Tamper proof tape

Packaging branding of the company

- It finds applications in industries such as steel, construction, packaging, outdoor signage & more.
- HDPE adhesive tape offers durable, water-resistant bonding for industrial & packaging applications.

BOPP Tapes

Brown & Transparent

- BOPP - 23/25/29: Biaxially Oriented Polypropylene film.
- Coated with water-based adhesive in various GSM (micron) coating thicknesses.
- Commonly used for carton box sealing & stationery purposes.
- Offers packaging & sealing solutions for domestic & industrial applications.
- Known for its high performance & high tack adhesive properties.

BOPP Printed Tapes

- Printing options: Single & multiple colors, with company's logo or custom design.
- Purpose: Self-promotion, advertising & marketing display for enterprises.
- Use cases: Ideal for carton box sealing & stationary purposes.
- Branding: A top choice for branding purposes.
- Information carrier: Serves as an effective information carrier.

BOPP Tapes Quality Specifications			
Sl.NO	PARAMETERS	UNIT	VALUES
1	Total Thickness	Micron	38-52
2	Backing	-	BOPP Film
3	Adhesive	-	Water Based Acrylic Emulsion Resin
4	Film Thickness	Micron	23,25,29
5	180° Peel Adhesion	Gm/Inch	400-650
6	Holding Power	Minutes	350-450
7	Tensile Strength	Kg/Inch	5-10
8	Elongation	%	Min. 100
9	Colour	Visual	Clear / Tan

BOPP tapes suitable to use with automatic packing machines & manual dispensers

BOPP Tapes Quality Specifications		
PRODUCT	SIZE WIDTH & LENGTH (MM* MTRS)	REMARKS
BOPP Plain & Printed Tapes	24*65 to 250	-
	48*65 to 1000	-
	60* 65 to 1000	-
	72* 65 to 1000	-

Features:

- High tack
- Adhesion bond > 200 gm/cm
- Elongation approximately 100 %

Applications:

- Carton Sealing
- Labeling
- Bundling the product

Paper Tapes

Kraft Paper Tapes

- **Eco-Friendly Composition:** Crafted from recycled materials, our Kraft Paper Tape aligns with sustainable packaging practices.
- **Moisture Resistant:** Effectively shields packages from environmental moisture & humidity.
- **Robust Adhesion:** Features a natural rubber/resin adhesive for secure sealing & tamper deterrence.
- **Impressive Strength:** Exhibits high tensile & tear strength, suitable for various applications.
- **Versatile Utility:** Ideal for securing cartons & fulfilling splicing needs.
- **Weather Endurance:** Engineered to withstand diverse weather conditions.
- **Aesthetically Pleasing:** Provides an attractive seal, enhancing package presentation.
- **Long-Lasting Durability:** Customised for extended usage without compromising effectiveness.

Paper Tapes Quality Specifications	
FEATURES	DESCRIPTION
Material	Brown Kraft paper & white paper
Adhesive Type	Pressure-sensitive adhesive (PSA) for easy application
Eco-Friendly	Recyclable & sustainable materials
Appearance	Natural brown color for a rustic aesthetic
Printing options	Single & 4 colors, with company's logo or custom design
Application	Ideal for packaging, sealing & labeling
Residue Free	Easily removable without sticky residue
Use Case	Excellent for carton sealing, e-commerce packaging & labeling

Paper Tapes Quality Specifications		
PRODUCT	SIZE WIDTH & LENGTH (MM* MTRS)	REMARKS
MVS brown Kraft & White Paper Tapes	24*50	-
	48*50 to 250	-
	72*50 to 250	-

Recycle

Good Tensile Strength

Easy to Handle

Good Adhesion & Peel Strength

Cross Filament Tapes

Cross Filament Tapes

- PET based bi-axially oriented glass fiber backed tapes are excellent at bundling & in packaging industry.
- The reinforced backing provides high strength as well as abrasion resistance.
- These tapes are an established option for holding of heavy-duty equipment & appliances during transit.

Applications

- Bundling Heavy Items
- Reinforcing Packages
- Palletizing
- Strapping & Securing Loads
- Sealing Heavy Cartons
- Packaging Sharp or Heavy Objects

Cross Filament Tapes Quality Specifications		
PRODUCT	SIZE WIDTH & LENGTH (MM* MTRS)	REMARKS
Cross Filament Tapes	24*50	-
	48*50	-
	72* 50	-
	120*50	-
	192*50	-

Double Side Polyester Tapes

Double Side Polyester Tapes

- Double Sided Polyester Tapes is a transparent double-sided self- adhesive tape consisting of a PET backing & a strong acrylic adhesive.
- Double sided polyester tape is ideal for many lightweight mounting & bonding applications like.
- It features an aggressive high tack acrylic or a high temperature silicone adhesive that sticks to almost any surface.
- It has a strong polyester carrier that allows you to reposition the tape should you make a mistake when applying it.

Ideal For Use On:

& more

Features
